**Background Information**

LA FARGEVILLE CSD - 221401040000

**Summary and Background Information** On March 11, 2021, the President signed into law the American Rescue Plan Act of 2021 (ARP). ARP makes available \$122.8 billion nationally in a third round of Elementary and Secondary School Emergency Relief (ESSER) funds. New York State has been allocated nearly \$9 billion under the ARP Act's Elementary and Secondary School Emergency Relief (ESSER) Fund. The federal ARP statute requires that States reserve ARP ESSER funds for three State-level reservations for evidence-based activities and interventions that respond to students' social, emotional, mental health, and academic needs and address the disproportionate impact of COVID-19 on students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory students.

Not less than 5 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, activities to address the academic impact of lost instructional time by supporting the implementation of evidence-based interventions.

Not less than 1 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, the implementation of evidence-based summer enrichment programs.

Not less than 1 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, the implementation of evidence-based comprehensive after-school programs.

The 2021-2022 enacted New York State budget fully allocated the required SEA reserves as subgrants to 398 LEAs and NYSED has made allocations to two additional LEAs. Specific LEA allocations are detailed in Columns D, E, and F in the **ARP ESSER Allocations Chart** (see also in the Document Library). Please note that these funds are in addition to the *90% LEA ARP-ESSER ALLOCATION* listed in Column C of that workbook and must be budgeted for separately. As indicated in NYSED's approved **ARP ESSER State Plan**, NYSED has included within this application a list of evidence-based interventions related to each state reserve. LEAs will be required to utilize state reserve funds to implement evidence-based interventions either chosen from the NYSED-selected list or from another reputable source (such as, but not limited to, the What Works Clearinghouse). **RESOURCES RELATED TO EVIDENCE-BASED REQUIREMENTS.** LEAs must select and implement evidence-based activities and interventions either chosen from the NYSED-provided list (embedded within each section of the application) or from another reputable source. Selected interventions must fall into one of the four tiers of evidence defined in the Every Student Succeeds Act (ESSA). Specifically, evidence tiers are defined as:

**Tier 1 - Strong Evidence:** Supported by strong evidence from at least one well designed, well implemented experimental study (randomized-control groups). Studies show that this strategy improves a relevant student outcome (e.g. reading scores, attendance rates). In these studies, students have been randomly assigned to treatment groups or control groups, so that researchers can speak with confidence that those who participate in the intervention strategy outperform those who do not. These studies meet the What Works Clearinghouse evidence standards without reservations. The studies use large, multi-site samples.

**Tier 2 - Moderate Evidence:** Supported by at least one well-designed and well-implemented quasi-experimental study (matched groups, interrupted time series, et al.) Studies have found that the strategy improves a relevant student outcome (e.g. reading scores, attendance rates). Students in these studies have not been randomly assigned, but researchers have used statistical matching methods that allow them to speak with confidence that the strategy results in an improved outcome. These studies meet the What Works Clearinghouse evidence standards with reservations. The studies use large, multi-site samples. No other studies show that this strategy negatively impacts an outcome.

**Tier 3 - Promising Evidence:** Supported by at least one well designed, well implemented correlational study with statistical controls for selection bias. There is evidence that this strategy improves a student outcome (reading scores, attendance rates), but that research may consist of correlational studies -- studies that can show a relationship between the strategy and outcome but cannot show that the improved outcome was the result of the strategy. The studies supporting Tier 3 strategies do not have to be based on large, multi-site samples. A strategy that would otherwise be considered Tier 1 or Tier 2, but it does not meet the sample size requirements, is considered Tier 3. No other studies show that this strategy negatively impacts an outcome.

**Tier 4 - Demonstrates a Rationale:** High-quality research findings or positive evaluation suggests that this will likely improve student outcomes or other relevant outcomes; and there are ongoing efforts to examine the effects of such activity, strategy, or intervention. Based on existing research, the intervention cannot yet be defined as a Tier 1, Tier 2 or Tier 3. However, there is good reason to believe — based on existing research and data — that the intervention

could improve relevant student outcomes.

Further information may be found in the **Federal Guidance on Evidence-Based Interventions**. There are a number of resources available that identify research which supports specific interventions. Districts and schools are encouraged to review the various clearinghouses to find programs, strategies, and interventions that align to the needs identified during the needs assessment process. Finally, additional technical assistance materials to support LEA planning and implementation of strategies and interventions are available on the Department's **ARP ESSER webpage** and in the Document Library. **Project Period** March 13, 2020 to September 2024 to obligate funds. Funds must be fully liquidated and an FS-10F Final Expenditure Report submitted by October 31, 2024. **Project Number** The project numbers for the three state-reserve programs are:

Fund Code	Project
5884-21-XXXX	ARP-ESSER 5% State-Level Reserve - Addressing the Impact of Lost Instructional Time
5883-21-XXXX	ARP-ESSER 1% State-Level Reserve - Comprehensive After School
5882-21-XXXX	ARP-ESSER 1% State-Level Reserve - Summer Learning and Enrichment

This number should be used on the appropriate FS-10 budget form. **Submission Deadline** Completed applications are due by **November 30, 2021** (with extensions by request) and will be reviewed on a rolling basis. If an eligible school district does not intend to apply for one or more of its ARP ESSER State Reserve allocations, please advise NYSED by emailing CARESAct@nysed.gov prior to **November 5, 2021**. Please note that applications must be submitted and fully approved by no later than March 23, 2022. LEAs that have not been issued a Grant Award Notice by that time will be at risk of having their ARP-ESSER State Reserve allocation returned to the United States Department of Education.

**ARP-ESSER State Reserve: Assurances**

1. The LEA assures that ESSER funds are used for activities allowable under section 2001(e) of the ARP Act, 18003(d) of the CARES Act and 313(d) of the CRRSA Act.  
☒ YES, the LEA provides the above assurance.
2. The LEA assures that it will comply with all reporting requirements at such time and in such manner and containing such information as the Commissioner may reasonably require, including on matters such as but not limited to:
  1. data on each school's mode of instruction (remote, hybrid, in-person), including student attendance data (disaggregated by student subgroup) for each modality;
  2. LEA uses of funds to meet students' social, emotional, and academic needs, including through summer enrichment programming and other evidence-based interventions, and how they advance equity for underserved students;
  3. LEA uses of funds to sustain and support access to early childhood education programs;
  4. impacts and outcomes (disaggregated by student subgroup) through use of ARP ESSER funding (e.g., quantitative and qualitative results of ARP ESSER funding, including on personnel, student learning, and budgeting at the school and district level);
  5. student data (disaggregated by student subgroup) related to how the COVID-19 pandemic has affected instruction and learning;
  6. requirements under the Federal Financial Accountability Transparency Act (FFATA); and
  7. additional reporting requirements as may be necessary to ensure accountability and transparency of ARP ESSER funds.☒ YES, the LEA provides the above assurance.
3. The LEA assures that records pertaining to the ARP ESSER award under 2 C.F.R. § 200.334 and 34 C.F.R. §76.730, including financial records related to use of grant funds, will be retained separately from other grant funds, including but not limited to funds that an LEA receives under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) and the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSA Act).  
☒ YES, the LEA provides the above assurance.
4. The LEA assures that the LEA will cooperate with any examination of records with respect to such funds by making records available for inspection, production, and examination, and authorized individuals available for interview and examination, upon the request of (i) the Department and/or its Inspector General; or (ii) any other federal agency, commission, or department in the lawful exercise of its jurisdiction and authority.  
☒ YES, the LEA provides the above assurance.
5. The LEA assures that the LEA will comply with all applicable assurances in OMB Standard Forms 424B and D (Assurances for Non-Construction and Construction Programs), including the assurances relating to the legal authority to apply for assistance; access to records; conflict of interest; merit systems; nondiscrimination; Hatch Act provisions; labor standards; flood hazards; historic preservation; protection of human subjects; animal welfare; lead-based paint; Single Audit Act; and the general agreement to comply with all applicable Federal laws, executive orders and regulations.  
☒ YES, the LEA provides the above assurance.
6. The LEA assures that the LEA will have on file with the SEA a set of assurances that meets the requirements of section 442 of the General Education Provisions Act (GEPA) (20 U.S.C. 1232e).  
☒ YES, the LEA provides the above assurance.

**ARP-ESSER State Reserve: Consultation**

- 1. An LEA must engage in meaningful consultation with stakeholders and give the public an opportunity to provide input in the development of its plan. Specifically, an LEA must engage in meaningful consultation with students; families; school and district administrators (including special education administrators); teachers; principals; school leaders; other educators; school staff; and their unions. Additionally, an LEA must engage in meaningful consultation with each of the following, to the extent present in or served by the LEA: Tribes; civil rights organizations (including disability rights organizations); and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, students involved with the juvenile justice system, and other underserved students. In the space provided below, please describe how the LEA has meaningfully engaged a diverse and representative set of stakeholders to receive feedback in developing its plans to address the impacts of lost instructional time, provide summer learning and enrichment, and support comprehensive after school activities using State-Level Reserve Funds.**

1. The District began by holding information and brainstorming sessions with stakeholders, including students, families, school and district administrators (including special education administrators), teachers, principals, school leaders, other educators, school staff, and their unions. 2. We then broke down into two subcommittees, an elementary and a secondary team, who reviewed and prioritized the ideas from the brainstorming sessions. 3. A third session was held with a shared decision making committee consisting of people from within each stakeholder group, including students, families, school and district administrators (including special education administrators), teachers, principals, school leaders, other educators, school staff, and their unions. This committee developed and prioritized their own ideas, combined them with the ideas from the prior meetings, and prepared a presentation for the BOE. 4. At a BOE meeting, the plan was presented to the BOE by representatives of this committee and a discussion was held. 5. A public hearing was held and the proposed plan presented so any interested parties from the District had an opportunity to share their thoughts, concerns, and opinions. Included in each of these steps, meaningful consultation happened with the following people: Director of Special Education, Chairperson of the Committee on Special Education, Homeless Liaison, and Administrators who oversee migrant, foster care, English learners, children who are incarcerated, and underserved students. As we implement this plan, we continue to engage with all stakeholders, including students, families, school and district administrators (including special education administrators), teachers, principals, school leaders, other educators, school staff, and their unions through monthly shared decision making committee meetings (CDEP) that include updates and evaluation of the implementation of the plan.

- 2. In the space provided below, please provide the URL for the website(s) where the LEA Plan for using State-Level Reserve Funds is/will be publicly posted. For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.**

Our Plan will be available on our District website: <https://www.lafargevillecsd.org/Page/1433> For those who request the plan we will either send them an electronic copy, will make a hard copy available at our main office, or will mail them a copy as needed.

- 3. In the space provided below, please describe how the LEA will support ongoing engagement with parents and families, including engagement related to identified student needs, areas of student gains, and available assistance to families that will support student success.**

Engagement will be ongoing, meaningful, collaborative, and accessible. Communication will include phone calls home and sharing resources when meeting in person, or district website. Student and family surveys will be used by educators to provide feedback on how students are feeling with their learning. Furthermore, parent conferences are arranged twice a year, progress monitoring and reports are sent home to all student every five weeks, parents continuously have access to grades via the student management system, and newsletters are sent home quarterly. Opportunities for afterschool tutoring and other assistance programs (summer) are advertised via all the methods mentioned previously and through both our district website and Facebook page.

**ARP-ESSER State Reserve: Comprehensive Needs Assessment**

- 1. In the space provided below, please describe how the LEA will determine the social, emotional, mental health, and academic needs of students, particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.**

The District determines student needs through direct response from a comprehensive needs assessment. The District will analyze both class grades and interim exam data in core subject areas given at all grade levels (K-12) throughout the 2021-22 school year with a cross comparison to previous years data to identify student needs. The use of student and family surveys will be used by educators to provide feedback on how students are feeling. Special consideration and focus will be given to students who have been disproportionally impacted by COVID-19 and showed significant learning loss and/or social/emotional concerns including, but not limited to: students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.

**5% State-Level Reserve - Addressing the Impact of Lost Instructional Time: Program Design**

1. The interventions implemented through the 5% State-Level Reserve to address the impacts of lost instructional time must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for addressing the impacts of lost instructional time will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.

The District developed a tailored/individualized plan for K-2 students. The framework centers around smaller class sizes and differentiated instruction using a strategic mix of skills to get students back on track. Three teachers were hired to combat impacts of lost instructional time at K-2 level. State Reserves funding will be used to fully fund three teachers in 2021-22, and 2022-2023. In 2023-2024, 1.4 FTE will be covered by State Reserves leaving 1.6 FTE to be covered by 90% Base ARP - ESSER funding. We chose to focus on smaller class sizes and differentiated instruction after surveying our staff about student needs. They identified the difficulties faced by having too many students in the room at varying levels as their greatest classroom challenge and we know utilizing the correct instructional strategies has a huge influence on student learning especially when there are gaps in the students learning.

2. In the chart below, please provide additional information about the planned evidence-based interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. Please add rows as necessary to reflect the district's entire plan for the use of State-Reserve funds to address the impact of lost instructional time.

3. In the space provided below, please describe how the LEA will monitor and evaluate the effectiveness of selected strategies to ensure that the interventions implemented respond to students' social, emotional, mental health, and academic needs. Provide details about how changes to the program plan (such as changes in identified areas of need or supports provided to students) will be communicated to stakeholders.

The District will monitor and evaluate the effectiveness of tailored instruction in K-2 by analyzing interim exam data with a cross comparison to previous data. As changes are needed to the program, details will be provided to stakeholders by phone calls home and sharing of resources when meeting in person.

**1% State-Level Reserve - Comprehensive After School: Program Design**

High-quality afterschool programs should have the goal of providing students with important opportunities for academic support and access to enrichment opportunities that help develop social, emotional, and leadership skills. These benefits are particularly important to students from low-income backgrounds, students who are struggling, and students at risk for later academic disengagement. High-quality afterschool programs have demonstrated positive effects on student math and language arts achievement, and programs strongly rooted in the school context can also have a positive impact on school related student outcomes, including greater self-confidence, increased civic engagement, better school attendance, improved high school graduation, and decreased delinquency.

- The interventions implemented through the 1% State-Level Reserve for comprehensive after school programming must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for comprehensive after school programming will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.**

Targeted High Dosage tutoring will be used in an extended school day approach to reach those most at risk. Teachers will provide personalized instruction three times weekly for one hour after school. After surveying our teaching staff and analyzing student interim exam data, we recognized that our during the day instruction was not going to be enough for some of the gaps our students have due to the pandemic. So, in order to increase instructional time to address the students of greatest need we are using funds to extend the school day for these targeted students 3 days per week. There will also be additional afterschool tutoring sessions provided on an as needed basis with funding being used from ARP - ESSER Base 90% Funding.

- In the chart below, please provide additional information about the planned evidence-interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. 3. In the space provided below, please describe how the LEA will monitor and evaluate the effectiveness of selected comprehensive after school programming/strategies to ensure that the interventions implemented respond to students' social, emotional, mental health, and academic needs. Provide details about how changes to the program plan (such as changes in identified areas of need or supports provided to students) will be communicated to stakeholders.

Targeted High Dosage Tutoring will align with classroom content and reinforce and support teachers' classroom instruction. As such, ongoing classroom assessments will be used to monitor student progress. As changes are needed to the program, details will be provided to stakeholders by phone calls home and sharing of resources when meeting in person.

**1% State-Level Reserve - Summer Learning and Enrichment: Program Design**

Summer learning programs can offer another opportunity to accelerate learning, especially for those students most impacted by disruptions to learning during the school year. Schools and districts should design programs that work best in the local context and reflect the characteristics that evidence suggests lead to successful summer programs. These characteristics include: programs are voluntary, full-day lasting five to six weeks, include three hours of language arts and mathematics taught by a certified teacher each day, and include enrichment activities and experiences. Research points to the potentially positive benefits of strong summer programs. A longitudinal study of summer programs showed students who participated in the summer programs that were reviewed received some benefits in mathematics; however, students with high rates of attendance who attended programs for consecutive summers experienced the greatest learning gains. The amount and quality of instruction influenced the academic benefit, with the highest benefits to students attending programs with high-quality instruction provided by a certified teacher and high academic time on task.

- The interventions implemented through the 1% State-Level Reserve for summer learning and enrichment must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for summer learning and enrichment will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.**

Our plan is to enhance our summer learning program and align it with our regular year program by purchasing an evidence based curriculum in ELA and Science while also offering a curriculum aligned summer enrichment activity. The ELA curriculum will target learning loss in grades K-2 and will be used during our targeted summer school program. The Science curriculum will be used in grades 4-8 to enhance and update our science curriculum to the next-generation standards. Secondary students will be able to partner with Clarkson University staff and students and attend a STEM camp on the high school campus that is directly aligned to the secondary science curriculum. Students will be selected for these programs based on an analysis of their academic achievement as demonstrated through their grades, teacher recommendation, analysis of interim exams and the state test scores that we have. The STEM camp is meant to be a voluntary camp. ESSER LEA Base 90% funds are used in conjunction to fully fund the program.

- In the chart below, please provide additional information about the planned evidence-based interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. Please add rows as necessary to reflect the district's entire plan for the use of State-Reserve funds to address the impact of lost instructional time.**
